Weekly Coal Production

Energy Information Administration
Washington, D C

Production for Week Ended:
April 13, 1985

Published:
April 19, 1985

Highlights

Production of bituminous coal and lignite in the week ended April 13, 1985, as estimated by the Energy Information Administration, was 17,624,000 short tons. This was an increase of 914,000 short tons or 5.5 percent from production in the previous week. Production in the corresponding week of 1984 was 17,738,000 short tons. Bituminous coal and lignite production from January 1 through April 13, 1985 totaled 248,215,000 short tons, and from January 1 through April 14, 1984 totaled 257,642,000 short tons.

Production of Pennsylvania anthracite in the week ended April 13, 1985, as estimated by the Energy Information Administration, was 75,000 short tons, 4,000 short tons more than production in the previous week. Production in the corresponding week of 1984 was 56,000 short tons. Anthracite production from January 1 through April 13, 1985 totaled 1,087,000 short tons, and from January 1 through April 14, 1984 totaled 921,000 short tons.
